IS THE SCENT OF NATURE

Osmè means perfume, essence.

An element capable of waking forgotten emotions and of giving life to incredible experiences.

A delicate and discreet collection where the natural element becomes a distinctive of the various items. Soft and sandy colours describe the various cosmetics and the soap transforms itself into a leaf. The natural feeling of the whole line is emphasized by intelligent design and, where possible, from recyclable materials.

The botanical elements besides having an aesthetic function also acts as the seal of the bottle, ensuring the integrity of the contents.

Cosmos, Organic Certification

Osme' and its transparency in labelling: a COSMOS certified product has a COSMOS symbol clearly placed on the packaging, which allows consumers to recognize a truly Certified Organic product among others.

To obtain the Cosmos Organic Certification you need to meet these key requirements:

- › At least 95% of the physically processed agro-ingredients must be organic (PPAI) + agro-ingredients chemically modifies (CPAI)
- › 10% of the total ingredients are from organic farming (CLEANSER rinse off)
- › 20% of the total ingredients are from organic farming (CREAM leave on)

*Cosmos Organic certified by Ecocert Greenlife according to COSMOS standard available at <http://COSMOS.ecocert.com>

FOR ECO-LOVERS
ONLY, PLEASE
DON'T FORGET!

Not just function but also the style reflects the vision behind the creation of the product itself. For Osme' we have created a range of vessels that captures the soul of the collection, communicating its philosophy thanks to an innovative and natural design, conceived in order to guarantee resources and transport volume saving. To this end, even the packing system has been especially designed. When possible we have used recyclable materials such as a source of corn starch. All the paper accessories have been printed using a soy based ink. Every aspect of the collection meets the Cosmos standard, which the cosmetics are certified with.
